The surgeons and specialists the 90210 set have on speed-dial

THE STAR SURGEON

Beverly Hills-based Garth Fisher is a household name. He's surgeon to the Kardashians and is famous in his own right, having appeared on *Extreme Makeover* as well as being a guest on *The Oprah Winfrey Show*. Fame aside, the results of his surgeries are flawless. The signature Pinnacle Lift combines several small procedures to tighten sagging faces, lifting the brow, reducing hooded eyelids and smoothing the jawline. Garth is best known for delivering a shapely pair of breasts. New mothers, women who have lost significant amounts of weight or those simply wanting a boost of volume (and self-esteem) all benefit from his careful augmentations using rounded or teardrop-shaped implants, inserted either above or below the muscle. Kate Hudson and Nicole Richie are both said to have gone under his knife. *At Suite 222, 120 South Spalding Drive, CA 90212. (+1 310 273 5995; garthfisher.com)*

THE NOSE GUY

Dr Raj Kanodia is on many a celebrity's speed-dial. That's because the undisputed go-to guy for noses (Jennifer Aniston and Cameron Diaz have both reportedly benefited from his scar-free rhinoplasties) also throws some of the most famous society parties at his Bel Air mega-mansion, which is rumoured to be the most expensive in the United States. His eighth-floor consulting suite is similarly impressive: a room
